

OmniStrap 570

BATTERY HANDTOOL
PLASTIC STRAP

The Cyklop OmniStrap 570 is a high-performance, battery-operated strapping tool designed for heavy-duty and high-load applications that require high tension and high reliability. Combining all essential strapping functions like tensioning, sealing, and cutting into single, user-friendly device.

The tool's strap tension can be adjusted variably up to 7000 N, making it ideal for industries that handle heavy goods and require superior tensioning capabilities. Compatible with PET and PP straps ranging from 19 to 25 mm, it ensures tight and secure packaging.

Designed for durability and reliability, the OmniStrap 570 is built to withstand tough conditions. It is impact, dust, and moisture resistant, making it ideal for use in demanding environments. The tool's battery-operated design provides the freedom to work in various locations without the limitations of a power cord.

For added convenience, the tool features a memory function with five pre-set programs, allowing operators to quickly recall frequently used settings and streamline their workflow.

EASY TO USE

- ✓ Touch Display
- ✓ Memory mode
- ✓ Strap alignment guides
- ✓ Welding time settings
- ✓ Tension force settings

IMPROVED PERFORMANCE

- ✓ Variable tension speed
- ✓ Tension indicator (filled out bars)
- ✓ Tension range with low mode
- ✓ More cycles per charge

FLEXIBLE & RELIABLE

- ✓ Save favorite settings
- ✓ For PP/PET strap
- ✓ For heavy and light packaged goods
- ✓ Display & audible signal
- ✓ Impact, dust, and moisture resistant

TECHNICAL DATA	
Strap	PP (Polypropylene) PET (Polyester)
Strap width	19 – 25 mm
Strap thickness	0.6 – 1.3 mm
Welding time	0.5 – 4 s
Tension force	400 – 7000 N
Tension speed	>200 mm/s
Weight	4.9 kg tool body 0.62 kg battery
Dimensions mm	L 420 x W 166 x H 165
Strapping cycles per charge	PP – 400 PET – 300
Battery	18V 5000 mAh
